STEPS:

1. Attach the 5 ¼" x 3" piece of DSP to the front of the card.
2. Flip over the 5 ¼" x 1" piece and attach it to the right edge of the 5 ¼" x 4" Basic White piece so that the reverse pattern is showing.
3. Score the 1" strip of colored cardstock saved from cutting the card base at 2 ½".
4. Attach the strip to the card base so that the score line aligns with the right edge of the card base.
5. Attach the Basic White piece to the inside of the card base, which will cover the strip where it is attached.
6. Stamp the flowers on a scrap of white and die cut them out.
7. Die cut some leaves using the scrap of basic black cardstock.
8. Die cut a couple of smaller flowers from Berry Burst (or your color of choice).
9. Arrange the flowers and leaves as you like and attach them to the white die cut circle.
10. Attach the completed front circle piece to the 1" cardstock strip so that it will face the front when the flap is closed.
11. Attach the 3" DSP circle to the back of this to cover the strip attachment.
12. Add a sentiment to the inside, add gems or other embellishments as you choose!
