

SUNFLOWER FIELDS EASEL CARD

Stamp Sets: **Radiant Sunflowers**
 Sweetly Sentimental Hot Foil Dies – Gold foil

CARDSTOCK

Old Olive: 8 ½" x 5 ½" scored at 2 1/8" and 4 ¼"
Golden Glow: 5 ¼" x 4" Plus scraps to die cut 4 small sunflowers
Early Espresso: Small scrap to die cut 2 flower centers
Basic White: 5" x 3 ¾"

Sunflower Fields DSP: 4 ¾" x 3 ½", tall flowers pattern

Ink Colors: Old Olive

1. Fold the card base along the score lines in a Z shape.
2. On the bottom of the inside of the card base, stamp a row of randomly placed leaves in Old Olive.
3. Glue the sunflower DSP to the white layer. Attach this piece to the Golden Glow layer.
4. Glue this card front to the top of the Z-fold as shown, being careful to only apply glue or tape runner to the top section of the card front so it doesn't go past the fold of the base.
5. Take two of the Golden Glow flowers and glue them together. Repeat with the other two, then add the flower centers.
6. Using a dimensional on each of these, place ONE on any one of the flower images on the front of the card that you like.
7. Attach the 2nd raised sunflower to the inside of the card base, where you stamped the leaves. Try to get the center of the flower about 1 ½" from the bottom edge of the card.
8. Your kit contains an assortment of greeting pieces in gold foil on white cardstock. Use whichever greeting or combination of greetings you like! On my sample, I used "just a little hello" on the front and "sending bunches of love" on the inside.
